

BREEDERS AND FEEDERS
SHOW AND SALE AT LETHBRIDGE
IN OCTOBER—TENTATIVE
DATES SET FOR
OCTOBER 2 AND 3 AT EXHIBITION
GROUNDS IN LETHBRIDGE—OPPORTUNITY FOR
RANCHERS AND FARMERS

The district surrounding Lethbridge is in a particularly favorable situation insofar as the live stock industry is concerned, in that we have perhaps more than anywhere else in Canada the fortunate combination of an abundance of high-class roughages, a comparatively mild climate, as well as large numbers of cattle and sheep on the adjacent ranges, these being, generally speaking, of better breeding and quality than is found on feeder markets.

It has long been in the minds of men interested in the live stock industry of Southern Alberta that Lethbridge would be a logical location to hold a show and sale of such stock as our range men have for sale and the irrigation farmers have need of in the utilization of fodder crops; also a show and sale of such breeding ewes and rams as will be required to satisfy the increasing demand for this class of live stock from the irrigation districts.

The Lethbridge Exhibition Board is fostering and have appointed a committee to organize a show and sale of such stock as will be in demand this autumn, namely feeders, steers, feeder lambs, ewe lambs, breeding ewes and rams.

The show and sale will be held at the Exhibition grounds at Lethbridge on Oct. 2 and 3, 1929. These

dates are tentative and may be changed to suit seasonal developments. A sale at Lethbridge has a distinct advantage to both the seller and the purchaser, in that it will save unnecessary freight charges and unnecessary handling of stock. The show and sale committee would welcome enquiries, either from those with stock to sell, or from prospective buyers. These should be addressed to the secretary of the committee, Mr. R. W. Gardner, Sherlock Bldg., Lethbridge, or any of the members of the show and sale committee, the personnel of which is as follows: M. L. Freng, R. W. Gardner, C. H. Giffin, Fred Horne, Alex McKenzie, Wilbur McKenzie, N. T. Macleod, W. H. McIntyre, Arthur Newman and George Ross.

GARDENING HINTS

Easily Grown Annuals

Even the busy person who cannot afford to potter too much around the flower garden can have a brilliant display of bloom with very little trouble. In choosing his flowers he must make sure that they require little care, not much in the way of special location or soil; that they bloom freely, and last for a long time. They must not be too fussy in the matter of watering because the busy person has no time to spend in nursing them along during the dry weather. With these points in mind, one cannot go wrong in choosing all or some of the following: Snapdragons, Marigolds, Poppies, Annual Larkspurs, Nasturtiums, Scabiosa, Zinnias, Salvia, etc. These are all medium to large-sized plants, with the exception of the Nasturtiums which can be secured either as ordinary or trailing plants. For a hot, sunny and sandy spot, Portulaca will make an excellent flower and will thrive even when neglected. It is a low spreading carpet of plant with a bright flower. Microtis should possibly be added for fragrance sake. Provided the flowers are kept removed and the weeds kept down early in the season, all these flowers should bloom from the first of July until autumn, and with the exception of the Poppies and Portulaca all make good clipping material for decoration indoors. They can be planted in clumps or beds, depending on color and size.

Move the Vegetable Garden

One would not think of growing wheat on the same land year after year, but in too many cases the garden is located in the same spot indefinitely and what is more serious there is little attempt to move the vegetables around from year to year in this space. In the country there is more chance of moving the vegetable garden from one place to another, and if this can be done it is a good plan as then there is no chance of the soil becoming depleted. But even in the smallest garden, it is advisable and possible to rotate the vegetables. One vegetable grown in exactly the same location each year will exhaust the particular fertilizer that that vegetable requires and may also fill the soil full of disease. Then, too, leguminous

U. S. NAVY OUTCLASSES THAT
OF GREAT BRITAIN IS
CLAIM

London, April 5.—(By George Hambleton, Canadian Press Staff Correspondent.)—The Daily Telegraph's naval correspondent, bearing analysis today of what he calls "America's huge naval estimate for the coming year," says:

"The American navy is equal to us in capital ships (and superior in the number of naval guns); is immensely superior in destroyers, submarines and aircraft; is inferior in cruisers only. When, however, the contemplated program has been completed America will gain a pronounced lead in the number of large, modern ocean-going cruisers."

The article observes that while each of the 15 new cruisers will cost \$17,000,000, comparative British cruisers are held at about \$10,000,000. The higher cost of the American ships, the correspondent adds "is due in part to economic conditions in the shipyards, but also in part to their superior speed, armament and equipment."

"On paper at least," he said, "our 10,000-ton class cruisers are quite outclassed by the American vessels. While two out of three British vessels authorized for the year are to be small ships, probably of 6,000 tons, mounting only six-inch guns, America is building 10,000-ton vessels carrying nine or ten 8-inch guns. Compared with the American figures, our own fleet air-arm dwindles almost to insignificance. Already the United States enjoys a four-fold superiority on this side."

crops, like beans and peas which actually add fertilizer to the soil, must be moved around so that the whole garden will benefit. Such crops will help to compensate for the heavy feeders like corn, beans and carrots. It will soon be time to think of getting the first vegetables in. Hardy sorts, such as radish, lettuce, spinach, and even carrots, beets and Swiss chard, can usually be planted just as soon as the soil is ready for cultivation. Sometimes this may occur for a few days in March or April, although the average date of seeding in most parts of Canada is far later than this. The gardener is not advised to risk his whole vegetable crop on the first seeding, but it is well worth while to put in a few rows of the earliest vegetables just as soon as possible. After all, the investment in time and seeds is negligible while extra early vegetables are worth about ten times as much as those that come in the regular season. To those who are well as the general crop along it is well to apply some

NOTICE TO CREDITORS AND
CLAIMANTS

In the Estate of Esther Silverthorn, deceased, late of Gramam, Alberta, Spintec, Deceased.

NOTICE is hereby given that all persons having claims upon the estate of the above named Esther Silverthorn, deceased, who died on the 16th day of May, 1928, are required to file with the undersigned Solicitor by the 12th day of May, 1929, a full statement duly verified of their claims and of any securities held by them, and that after that date the executor will distribute the assets of the deceased among the parties entitled thereto having regard only to the claims of which notice has been so filed or which have been brought to his knowledge. DATED this 26th day of March, 1929.

CHAS. F. CARSWELL,
Solicitor for the Executor,
Gramam, Alberta.

CLASSIFIED ADVERTISING

FOR SALE—QUARTER SECTION pasture land with three-quarter section lease adjoining, and thirty head cattle. Phone 802 or call at office G. R. Torrence. 7-11

FOR SALE—ONE THOUSAND bushels seed only. Gov. Germanization Test 95%. E. Thompson, half mile west Howe School. 7-2p60

BY PRIVATE SALE—ELECTRIC washer, child's crib, stroller, buffet, 2 easy chairs, garden tools, Radiant, kitchen utensils. Apply Mrs. Fraser, Cor. 19th St. and 3rd Ave., Macleod. 7-21

STRAYED ONTO THE WILKINSON place, N. W. 1/4-24-8-26, W. 4th, one gray horse, no visible brand. Owner can have same by paying for this advertisement. William Hunt Macleod. 7-3p2.15

FOR SALE—NINE-ROOM modern house and good barn eighteenth Street, East Fifth Ave. (Mrs. Thiel's former residence). Bargain. J. J. Dunbar, Macleod. 7-4p2.05

FOR SALE—1000 BUSHELS FEED Oats. Phone Frank Venn, 1004 Gramam. 6-1

BABY CHICKS—CANADA'S Bred-to-Lay, 100 per cent Alive. Leghorns \$17.00; Barred Rocks, Anconas \$18.00; Rhode Island Reds \$19.00; White Rocks \$20.00 per hundred. 12 month Poultry Course Free. Chicks from Pen Matins 25c each. Fed. Pen Chick Starter 10 lbs. Biologically Tested Guaranteed Analysis Free. Incubators, Brooders, Free Catalogue. Alex. Taylor's Hatchery 302 Furby St., Winnipeg, Man.

CANADA SENDS "I'M ALONE"
NOTE TO UNCLE SAM—
UNDERSTOOD IT PROTESTS
U. S. COASTGUARD ACT IN
SINKING SHIP UNWARRANTED

Ottawa, April 5.—The "Citizen" carries the following:
"A lengthy communication, bearing upon the sinking of the schooner 'I'm Alone,' is on its way to Washington going from the Dominion government to the government of the United States. It is addressed to the Canadian minister, Hon. Vincent Massey, who will hand it to the secretary of state.

"As to the contents of the missive, secrecy was observed in official circles here today, on the ground that it would be an act of discourtesy to make public a document addressed to another government before it had reached its destination.

"In any event it will probably be for the American authorities to decide what publicity is to be given the communication.

"It is definitely known, however, that the communication is in the nature of a protest against what is considered to be an unwarranted act of the United States coastguard in sending to the bottom, with consequent loss of life, a vessel of Canadian register when on the high seas.

Beyond Treaty Waters
"It is not admitted that she was in waters at all within the territorial jurisdiction of the United States, and it is claimed that the sinking was not only a violation of international law but also beyond any provision of the treaty between Great Britain and the United States the general purport of which was to help the latter country in the vexatious problems incidental to its enterprise in prohibition.

"The communication, apart from conveying this protest, sets forth in some detail, the circumstances of the episode and which the representations are based. It refers also to the treaty and to the right of 'hot' pursuit and generally claims that the patrol of the coastguard utterly and without warrant exceeded their rights under international law and the treaty, and it is understood, furthermore, that there is a clear intimation that, apart from seeking reparation for the future, the British authorities are understood to concur in the representations and the French government is also interested, because the sailor drowned or killed by a shell belonged to that country."

quickly available fertilizer, like nitrate of soda about every two weeks during the early part of the season. The best way to apply this is to dissolve about a tablespoonful in a gallon of water and soak the ground about the plants with a watering can.

Making a Lawn

It is vitally important to get the soil in proper condition before the grass seed is sown in making a lawn. It is a fairly simple matter to make the ground level before the seed is sown, but after that stage is one which requires years of patient work. Make sure that the surface is level. The easiest way to do this is to dig well, preferably of course in the Fall, but it is too late for that now. Clear out everything in the way of stones, sticks and roots, and rake level. Now, let the soil get a chance to settle, the rains will do this and a late frost will help. Rake level again and repeat two or three times. This may take a week or two but it is well worth while. In fact, unless one is in a great hurry it is best to put the space set aside for the lawn in some cultivated crop like potatoes for a season in order to have the earth settle properly. When everything is ready, select the very best seed obtainable. This is another very important point. Lawn seed can be secured at prices which vary widely. Sometimes, the beginner is tempted to purchase the lower priced article but he will be disappointed when his lawn gets ragged and coarse after the first year. Cheap seeds make a fine showing very quickly but as they contain a high per cent of coarse grasses, they fade as quickly. Good seed from reputable merchants is cheap insurance. One pound of seed is needed for every 200 sq. feet. Sow during the evening or on a quiet day, roll or pound in thoroughly, and cut with a very sharp mower when the grass is a few inches high.

University Feeders' Day

A large attendance of farmers and stockmen is expected at the eighth annual Feeders' Day to be held at the University of Alberta farm on Saturday, April 13th. On this occasion the experimental and research work with beef cattle, sheep and swine which has been carried on by the Department of Animal Husbandry will be reviewed and the results of the various tests made available to all who are interested.

"Better Seed Campaign"

General satisfaction is expressed throughout the province with the results of the campaign to promote the use of better seed grain recently carried on under the direction of the Department of Agriculture. The marked improvement in the quality of seed used last year was noted as the result of a similar campaign and it is hoped that a corresponding improvement will be apparent in the 1929 crop.

Soldier Settlers' Farms Being

Revalued
Gold prospecting is being made in the revolution of farms occupied by soldier settlers according to announcements made by officials of the Dominion Land Settlement Branch. A good start was made with this work last fall and inspectors of the Settlement Branch will continue their duties along this line in many districts in the province as soon as road conditions permit.

Teachers' Organizations Name

Officers
Miss Edith Patterson of Calgary was elected president, C. O. Hicks of Edmonton first vice-president, and Wm. Wallace of Camrose second vice-president of the Alberta Education Association for the ensuing year at the Annual Convention of the Association held in Edmonton during the past week. A. J. H. Powell of Fort Saskatchewan is the newly elected president of the Alberta Teachers' Alliance with C. G. Elliott of Edmonton as vice-president. Regional representatives of the Alliance were named as follows: Calgary, Miss J. McColl; Edmonton, C. O. Hicks; Northern Alberta, Leslie Robbins, Waskanan; Central Alberta, Miss E. C. Barclay, Red Deer; Southwestern Alberta, W. L. Irvine, Vulcan; and South-eastern Alberta, Mrs. J. N. Jakey, Drumheller.

Young Orators Enter Final

Contest
Gwen Gant, age 17, of Grande Prairie and Walter Macdonald, age 18, of Red Deer were selected as the winners for Northern Alberta and Southern Alberta respectively in the

THE REASON

"Farm products cost more than they used to."

"Yes," replied the farmer. "When a farmer is supposed to know the botanical name of what he's raising, the entomological name of the insect that eats it, and the pharmaceutical name of the chemical that will keep it off, somebody's got to pay."—Pathfinder.

You can't tell whether people have doctors so much because they are poor or are poor because they have doctors so much.

Correct this sentence: "His wife is smarter than he," said the gossip. "but he isn't the least bit resentful."

CAPITAL GOSSIP AND PROVIN-
CIAL NEWSPurdy To Handle Wheat Pool
Elevators

R. D. Purdy, Manager of the Alberta Wheat Pool, in addition to his present duties has been appointed manager of the Alberta Pool Elevators Limited, it is announced from the Pool head office in Calgary. Mr. Purdy's appointment fills the vacancy created by the retirement of C. M. Hall who has occupied this position for the past 2 1/2 years. T. E. Oliver, in addition to his present duties as assistant manager of Alberta Pool Elevators Ltd., has been named assistant manager of the Alberta Wheat Pool. These appointments bring all the departments of the Pool, including the elevator system, under one central management.

Will Bridge Many Northern
Streams

Two steel bridges and thirty bridges of wooden construction will be erected in the southern part of the Peace River district during the coming season as part of the provincial government's road building program. One of the proposed steel bridges spans the Beaverlodge River near the town of Beaverlodge, while the other will cross the Spirit River near Roycroft and many of the smaller bridges to be constructed will bring prosperous agricultural districts closer to railway transportation.

Technical Agriculturists Elect
Officers

D. H. Galbraith, M. L. A., of Vulcan has been elected president of the Alberta branch of the Canadian Society of Technical Agriculturists for the year 1929. Professor R. D. Sinclair, University of Alberta, is the new vice-president while J. M. Manson, also of the University staff, has been re-elected as secretary-treasurer and C. Tapp and Professor J. McGregor Smith have been named local executive committee of the organization.

British Boys Arrive For Farm
Training

The first group of British boys forty in number, coming to Alberta during the present season under the arrangement between the Provincial Government and the Overseas Settlement Board, arrived in the province during the past week. They have been equally divided between the schools of agriculture at Vermilion and Olds where they are being given a month's practical training in Canadian agricultural methods which will fit them for work on farms in the province. At the end of the month's training course another similar group is expected to arrive and following this two groups of British young women will come forward at intervals of a month for courses of training in practical home economics before being placed as domestic farm help.

Baby Beef Springs Heed Price

An unusually high price for baby beef was obtained at the Calgary Spring Show during the past week when the first prize calf in the Boys' and Girls' Calf Feeding competition sold for three dollars a pound. This calf, an Aberdeen Angus, shown by Harold Richardson of Bowden, was an outstanding winner in his class. It was purchased by Mrs. Hind of Hind's Meat Market, Calgary, and at a weight of 940 pounds, brought its young owner the handsome return of \$2,820.

University Feeders' Day

A large attendance of farmers and stockmen is expected at the eighth annual Feeders' Day to be held at the University of Alberta farm on Saturday, April 13th. On this occasion the experimental and research work with beef cattle, sheep and swine which has been carried on by the Department of Animal Husbandry will be reviewed and the results of the various tests made available to all who are interested.

TROOPS ENGAGE IN HOT
SCRAP AT NACO, ARIZONA—
U. S. CAVALRYMAN IS SHOT
IN MELEE AND BORDER
CITIES ROCKED BY BOMBS

Naco, Arizona, April 6.—American and Mexican soldiers clashed in battle here today, climaxing a night of violence along the international border during which the Southern Pacific line to the east was found to be strewn with bombs.

While the Americans and Mexicans were exchanging shots, the rebel army of Gen. Topete hurled itself in force against the Naco, Sonora, loyal garrison, defended by 1200 troops under General Lucas Gonzalez. Two airplanes, tanks and cavalry bore down on the federal entrenchments shortly after daylight and there was a heavy exchange of firing.

An Early Report

Naco, Arizona, April 6.—Shots were fired between Mexicans and United States troops here this morning. The Mexicans fired on the United States soldiers who returned the fire.

Will Warn Mexico

Washington, April 6.—War and state department officials are incensed today over reports of the shooting of an United States cavalryman and the firing on United States troops from across the international border today.

Instructions have been sent to Major Gen. Laster at San Antonio to take steps at once to impress on the rebel leaders in Sonora that the United States will not tolerate recurrence of the incident.

BETTER SEED, LARGER CROPS,
HIGHER PROFITS

(By H. G. L. Strange, Farm, Alberta, President, Canadian Seed Growers' Association.)

The farming world of Canada this last year has been filled with discussions in regard to practically everything that enters into production, transportation, processing, and delivery of Canadian grains on the world's markets.

One important factor has come out of it all, and is not disputed, which is that Canada is in serious danger of the loss of her hard-earned reputation for hard red spring wheat.

There is no disputing that if this reputation were to be lost it would be a catastrophe for the farmers of Canada, because it would mean at the out set that Canadian wheat would have to come into competition, on an equal basis, with it seldom has had to do up to the present, with the enormous quantities of hitherto regarded as inferior wheats from other wheat-exporting countries. Most certainly this would mean not only lower prices but a higher marketing cost as well because it would be more difficult to sell due to less eager demand.

As for the wheat raisers of Canada too long have regarded themselves as occupying a preferred position and have really come seriously to think that the person who buys their wheat should be satisfied with exactly what the Canadian farmer wishes to supply them with and should, in fact, regard himself as more or less of a lucky person to get this wheat at all.

This mental attitude on the part of the farmer is, of course, all wrong, and if continued will certainly lead to disaster. The unpleasant fact remains that the real master of the whole situation is the buyer and not the producer, and that if Canada wishes to remain as the supplier to the world's markets of the highest quality of wheat, that will fetch a premium above the wheats from all other countries when it is vitally necessary for the wheat producers of Canada, through their marketing organizations and other agencies, to take concerted steps to find out exactly the kind of wheat their customer demands and exactly the grade and shape in which the customer desires this wheat to be delivered.

The world's buyers require only a maximum of some ten grades of Canadian wheat. The unpleasant fact remains that last year some 450 grades of Canadian wheat were offered by farmers to the marketing agencies for sale. By actual count, with our present grades and varieties, it has been computed that no less than 2,623 grades could be produced. The great bulk of which grades are absolutely and entirely unnecessary and preventable.

Without recounting the many factors that go to make up all these unnecessary grades it is sufficient to state that a great number of them are caused by the mixing of different varieties. Therefore, no small number of this great mass of unnecessary grades can be eliminated by the farmer himself this coming year if he will determine to seed only seed that is pure, clean, reasonably true to variety and the right variety for his district.

Not only will the crops produced from such seed mature more evenly than scrub seed, not only will they give a higher yield because of the careful selective breeding work behind them, but in addition they will give a higher grade because of the truthfulness to variety.

This last year, for instance, because of the frost, was a very hard year for all wheats excepting the early varieties. Yet it was noted by skilled professional observers that whenever good true-to-variety seeds had been seeded, particularly registered seed, even with the later varieties, that the resulting crop

finals of the Alberta division of the Canadian and International Oratorical Association for Thursday night. These two winners will later contend for the privilege of representing Alberta in the Dominion finals to be held at Toronto, following which the Canadian champion will compete for International honours at Washington.

RED TRAIL FROM PINCHER
CREEK GRAVELLED TO WITH-
IN 10 MILES OF MACLEOD

Contractors now engaged in graveling the Red Trail between Macleod and Pincher Creek have 10 miles to surface before the link between Macleod and Cranbrook is completed.

The graveling gang has been working east from Pincher Creek and at present are located at Scott's Coulee, west of Macleod. In this section snow and frost are delaying the work and progress with the heavy trucks is very slow as many are being bogged down with their loads. There is a three mile haul from the gravel pit to the scene of work and until the road improves somewhat there is no telling when the actual completion of the Red Trail will take place. It had been hoped to finish the graveling within three weeks but one week has already gone by with no work done. The first of May should see this stretch of main highway finished.

The gravelled section between Lethbridge and Macleod is in good condition.

REACH & CO. LTD. HAVE
PURCHASED PALACE CAFE
BLOCK—WILL EXPAND BUSI-
NESS

Another evidence of the business stability, progress and development of the town of Macleod has been shown within the past few days by the purchase by Reach & Co. Limited of the fine building block known as the Palace Cafe, next door to their present general store.

On account of the great increase in Reach & Co. Ltd. business in recent years more accommodation is required to satisfactorily carry on and develop the business, as every indication points to Macleod expanding and becoming in the near future one of the most prosperous business centers of Southern Alberta. Reach & Company, being alive to this fact, are taking time by the forelock, and preparing to share in the big expansion of the future.

The firm are anxious to get possession of the new property as soon as possible, but they may not until next year, as the present tenants have a lease. The outside front of the new part will be made to conform to the present store front, and the whole interior will be remodelled, and connecting arches will unite the old and the new. The grocery department will be located in the new addition, and the whole will be fitted up in the latest style as a Departmental Store. It is the intention of the firm to make the store the most up-to-date commercial selling centre in Southern Alberta, by giving the buying public all the facilities and advantages both in prices and variety that can be obtained in the large departmental stores in the cities.

Charles S. Reach, son of the late Charles Reach, founder of the store, is now on the staff, and will take an active part in the development of the business. He has also been added as a member of the board of directors of the company, taking the position of vice president.

was much less harmed by frost and so commanded a much higher grade than the average run of crops of the same variety.

The air is full of co-operation these days but the farmer must not forget that only a small step is co-operation has been accomplished by co-operating together to put in an agency to market crops. True co-operation means that the farmer himself in turn will do everything within his power to co-operate, not only with his marketing agency, but also with the purchase of his products. Both of these mean actually the same thing, producing as nearly as possible the kind of product the customer demands and in such shape as he requires.

As far as the wheat industry is concerned, this simply means that crops will be produced which are as clean as possible and as true to variety as possible and of that variety which is most acceptable to the world's purchaser, which as far as the bulk of Alberta wheats is concerned means hard, red spring wheat, of high milling value.

To secure these kind of crops it is necessary for the first step to sow seed of the right variety and which will be as clean as it can be made, which will contain practically no weed seeds nor other kinds of grain, and which will be of strong vitality and germination.

If the bulk of western Canadian wheat growers would do this very simple thing there would never be the slightest danger of Canadian wheat losing the fine premium over all other wheats which it has enjoyed in the past and should command in the future. Incidentally too, the work of those who market this wheat will be easier and carried on more cheaply.

There is no money spent by the farmer which will bring him in such big profits as that spent in securing good, clean seed.

SEEDING AND PLANTING
FLOWERS

It frequently happens that those who are unacquainted with the habits of flowers and what weather conditions they will stand, lose either seeds or plants by sowing or planting them at the wrong time or under unfavorable soil conditions. The temptation is to sow all flower seeds outside as soon as the soil is dry enough in the spring not thinking of the cold frosty weather which is to follow, the result being that many seeds rot in the ground without germinating and other germinating but soon after the plants appear above ground they are killed by frost. It is, then, desirable to have some idea of the kinds of seed which may be sown very early and those plants of which the seeds should not

BOMBS CAUSE INJURY AND
PANIC IN EAST INDIAN
PARLIAMENT

Delhi, India, April 8.—Two bombs exploded in the Indian legislative assembly today, sharp on the heels of a preliminary crisis. Several persons were injured, causing a panic among the assemblymen.

Among the injured was Sir George Schuster, executive member of the governor-general's executive council. He and the other injured were taken to a hospital. Sir John Simon, head of the crown committee for constitutional reform in India, was standing with the president of the assembly when the explosion occurred, but was not injured.

Others injured were Sir B. Raghavendra, Mr. Shankar, Rao Rao, Mr. Dala (seriously), I. N. Roy, deputy secretary of the Indian central committee, who was sitting in the officers' gallery.

Three government benches were torn to bits by the bombs.

be planted until the soil is warmer or danger of frost nearly over.

Among the hardest annual plants grown for their flowers are Sweet Alyssum, Callendula or Pot Marigold, Candytuft, Cornflower, Corolla, Cosmos, Eschscholtzia, Larkspur, Linaria, Nasturtium, Poppy, Virginian Stock, Sweet Pea. These may be sown as soon as the soil is dry enough. Among the tender annuals are Nasturtium, Zinnia, Aster, Stocks, Balsams, seed of which should not be sown until the soil heats up somewhat and there is little danger of frost after the plants come up. The temptation is to plant Geraniums outside too early, especially when they have been inside all winter, but in most places in Canada they should not be planted outside until near the end of May or the beginning of June. Gladiolus corms may be planted as soon as the soil is dry enough but Cannas and Dahlias should not be planted until danger of frost is about over, the earlier that Roses are planted in the spring, the more likely they are to grow.

COMING EVENTS

FORESHADOWED

AN OPPORTUNITY TO MAKE
\$5.00 OR \$10.00

Watch the Empress Theatre advertisement on the front page of The Times in which one or twice monthly will appear a notice of the date on which the clipped advertisement will be good for one admission to a specified current picture—you buy one ticket and it, with the clipped ad admits two. 12 of these admissions at 45c amounts to \$5.40 a year—24 amounts to \$10.80. This is a nice saving in a year for film fans, and it will pay the public to watch the Empress advertisement and benefit thereby.

Owing to the severe storm the annual meeting of the Macleod Tennis Club was adjourned to Thursday evening the 11th inst., same hour and place. Members kindly attend. Friends welcome. 7-11

The Canadian Legion, Macleod, will hold their annual "Vimy" Smoker on the evening of Monday, April 15th, at the club rooms. All members cordially invited.

Mountain View Rebekah Lodge No. 23 will hold a Sale of Work and Afternoon Tea in the Town Hall Saturday, April 13th (3 to 6). 6-21

ALBERTA OIL

This recent flurry in oil stocks which caught and pinched so many margin-buyers, is unfortunate, not only because it resulted in financial loss to many who could not afford it, but also because the fluctuations and consequent loss will tend to sour thousands of investors on what is probably the greatest oil field in the world.

So far as oil is concerned, the Turner Valley is the geological wonder of the world. All through this valley runs a stratum of limestone from 500 to 3000 feet beneath the top layer of alluvial deposits. When earlier drillers struck this limestone they quit, because nowhere on earth, hitherto, had oil been found in limestone.

But those who persisted, struck pockets in the limestone stratum which contained almost pure gasoline. The geological fact is that under this limestone stratum, perhaps 5000 feet, perhaps 20 miles deep, is the greatest deposit of crude

oil in the world. That fact is proven by the phenomenon of pressure and quantity forcing the oil up through the limestone into the already discovered pockets.

Contrary to all experience, one well in the Turner Valley has shown an increased pressure since it was first brought in. This indicates that the canal from the crude oil deposit beneath the limestone up to the pocket is being gradually enlarged by pressure from beneath.

The probability is that this same thing will happen, in greater or

Win Some of
this Prize Money
With Your Kodak

\$30,000.00
in CASH

A SMALL fortune to be given away in prizes by the Eastman Kodak Co. and Canadian Kodak Co., Limited—just for everyday pictures that anyone can make!

Come in for entry blanks and start taking your contest pictures now. If one of your snapshots pleases the judges most you get \$2,500. Or you may win one of the other major awards of \$500, \$250 and \$100 each. A grand total of 1,223 cash prizes will be given. Surely you can win one. The

contest is for amateurs only. That means that you are as apt to take a prize-winning picture as any other entrant. But get started today. The more pictures you take and enter, the better will be your chance of success.

You don't need elaborate equipment to compete. If you haven't a camera we can fit you up with an inexpensive model at our Kodak counter. Here too you may obtain yellow-box Kodak film for best negatives—and our expert photo finishing for prints of prize-winning quality. Let our store be your headquarters for contest information and supplies.

lesser degree, in the case of every pocket discovered.

An Turner Valley, with all its richness, is only a slight indication of the great oil deposits that lie underneath nearly the whole of Alberta.

This is not something to gamble with, but something to buy, hold and develop.

It is unfortunate that recent stock gambling has destroyed, to some extent, the true perspective on this greatest of all oil fields in the world.

SOME FIGURES ON AVIATION

If you doubt that the aviation industry is rapidly on the way to a position among the industrial giants, read these figures just made public by the U. S. Aeronautical Chamber of Commerce.

During 1928 American aircraft manufacturers built airplanes to the value of over \$75,000,000—140 per cent greater than in 1927.

To be sure, as businesses go, a gross production of only \$75,000,000 is not large. But it is the rate of growth which this figure indicates that is important. The aircraft

industry is just beginning to hit its stride. Such cities as Wichita, Kas., where airplane factories are centering, can look to the future with a great deal of optimism.

THE ROLE OF SUNLIGHT IN THE NORMAL GROWTH OF CHICKS

Experimental work during the past few years has drawn particular attention to the importance of sunlight in the successful brooding and rearing of chicks.

It has been definitely shown that unless special supplementary feeds are fed chicks cannot be raised satisfactorily in the absence of sunlight. Since many early hatched chicks, particularly where cold winters are the rule, have not the opportunity of getting out into the sunlight it is essential to supply some form of substitute for the sun's rays to avoid trouble from leg weakness or rickets. Experimental work carried on at the Poultry Division of the Central Experimental Farm, Ottawa, has definitely shown that in spite of the complete absence of sunlight, chicks may be kept

healthy and make rapid gains if given certain supplementary feeds.

Of these, crude cod liver oil is the most efficient and when fed at a rate of 2 per cent of the mash consumed or about one tablespoonful daily to each fifty chicks, will give complete protection against rickets. Since cod liver oil is easily obtainable it is advisable to feed this material rather than the product known as cod liver meal, since the latter has given rather indifferent results in experiments conducted here. It is just possible that the same uniformity in quality is not available in the case of cod liver meal, and that it therefore is not at the present time at least, as dependable as cod liver oil.

Certain physical agencies in the form of ultra-violet ray machines and special glass substitutes will also give the desired effect. The former method of supplying the sun's rays is at the present time expensive, and in the experimental stage, its practical value not having been definitely determined. Most glass substitutes are not so durable as common glass and allow only a certain proportion of the sun's rays into the house, and once the chicks can get out into the sunlight, or windows can be opened wide, their usefulness is ended. Cod liver oil is much cheaper and will carry the chicks over until such time as they can reap full benefit of the sun's rays.

In the spring a young man's fancy in a great many instances lightly turns to—baseball.

STAGE SUCCESS EVEN STRONGER AS SCREEN PLAY.—FALLS JIMMY VALENTINE.—FAMOUS CROOK PLAY, WM. HAINES' HIT—STAR IN "STRAIGHT" ROLE — LEILA HYAMS, BLONDE BEAUTY, IS LEADING LADY IN ROMANCE

"Alias Jimmy Valentine." William Haines' new starring picture, coming Friday to the Empress Theatre, disproves for once and all the old theory that a story loses dramatic strength when transposed from the stage to the screen.

For more than a generation the play has been one of the most popular stories of the stage. The screen version, as directed by Jack Conway, contains almost the identical climax, although some changes in the middle of the story were made in the screen adaptation, with its wider field of scenic surroundings and action.

Haines plays Jimmy Valentine, a whimsical burglar who reforms for love of a girl, outwits a detective, and then, to save a child locked in a safe, opens the strongbox while the detective watches, facing jail to save a life.

Leila Hyams, whom Henry Clive, the famous artist, proclaimed the most beautiful blonde in America, plays the heroine of the new play, and Lionel Barrymore is seen as the detective who pursues the reformed hero, Howard Hickman plays the banker father of the heroine, and Karl Dane and Tully Marshall, play Haines' two comical henchmen.

"THE DOCKS OF NEW YORK" CLASSED AS BIG SUCCESS—DIRECTOR SAYS NEW FILM ECLIPSES HIS SUCCESSES

When the last scene for "The Docks of New York" was completed at the Paramount Hollywood studios, Josef von Sternberg turned to a friend and remarked "This is the best picture I have ever made."

The remark is more than passing in its importance for the director is the same one who startled the world with "The Last Command," starring Emil Jannings; "The Drag Net," starring George Bancroft, and last but not least, "Underworld," the latter being the first picture the director turned out for Paramount.

To have given the film public three such pictures in a row, all of which have been heralded as the best of their kind, is no small accomplishment. As a rule, directors are remembered by the public for a solitary cinematic achievement. It appears Von Sternberg is an exception to that rule. He has turned out three consecutively masterful and successful pictures.

No better recommendation could be asked, therefore, for the director himself to class "The Docks of New York," which is showing Monday and Tuesday at the Empress Theatre, as "the best picture I have ever made."

WHEN SPRING COMES UP THE SHENANDOAH

When Spring comes up the Shenandoah
It is a rush, a rally,
Swift as a blush on beauty's cheek
She flushes up the Valley!

She passes as in royal state,
The rivers rush to meet her,
The mountains smile as she goes by,
The orchards bloom to greet her.

All beauty's cohorts, lining up,
Salute their sovereign, passing;
The vagrant breezes mobilize,
Their fragrant forces massing.

The birds make music for her march,
The hoarse bees add their humming;
The joyful cattle on the hills,
Deep-throated, hail her coming.

The dogwood flings white banners out
To greet her every turning,
And high on steep, blue mountain sides,
Are redoubt beacons burning.

—Roselle Mercier Montgomery, in
"Many Devices."

TIME ECONOMY

Boss Painter: "I thought I told you to give the house two coats of paint, and here you've given it only one."

Apprentice: "Sure, and I thought I would save time, sir, by mixing them and putting both on at one time."—Christian Science Monitor.

OBITUARY

DEATH OF FRED TIMLECK

Fred Timleck, 48 years, died at an early hour Friday, April 5th, at Macleod hospital of heart trouble.

The body of the late Frederick W. Timleck was sent on Saturday's noon train, to Brockville, Ontario, his native town where his father still lives.

There was no service held in Macleod as the funeral will be conducted from the English church in Brockville of which he was a member. The fire brigade and Mountain View Lodge No. 4, I. O. O. F., Macleod, of which organizations the deceased was a very active member, took charge and made all arrangements for forwarding the body from Macleod to the funeral home in Brockville.

The members of the fire brigade acted as pall-bearers: Chief W. Shield, H. Sutherland, J. T. Doney, Joe Lemire, M. J. Platt and Chief of Police Pringle. There were also a good representation of Oddfellows present, following the cortege to the station.

DEATH OF JOSEPH RODEN MORRISON

The funeral took place Sunday, April 7th at 2:30 from the family residence, of Dr. Joseph Roden Morrison, Macleod, who died on Friday night after a long illness from tubercular trouble. A service was held at the residence by the Rev. Alex Ferguson, M. A., minister of St. Andrew's Presbyterian Church and about 50 members of the B. P. O. Elk Lodge No. 129, Macleod, of which the deceased was a member, were present in the procession and took part in the services at the grave side by performing the last rites of the Order for a departed brother, C. K. Underwood conducting the service of the Order for the occasion. The pall bearers were: Dr. R. McAffee, John Pringle, R. D. McNay, Harry Bester, H. E. Bailey and R. Hamilton. Many beautiful floral tributes were sent by sorrowing friends.

Dr. Morrison was born at Glen Luce, Wigtownshire, Scotland, but spent his boyhood and youth in the town of Stranraer. He came to Canada in 1907, and located first at Calgary, coming to Macleod in 1910. About 4 years ago he took a course in the profession of Chiropractic, returning to Macleod he practiced up till last October when he was stricken with his final sickness.

Nine years ago, on April 21st, Dr. Morrison was united in marriage with Miss Jean Wilson, who is a native of Nairn, Scotland, and who survives him. He also has brothers and sisters still living in the Old Country. The deceased by his long residence in Macleod was well known and was much respected by a large number of friends and acquaintances, and much sympathy is felt for his widow.

EDITORIAL

10,000 years ago Sze was a fisherman off the coast of China. He was a good executive. Got others to do his work for him.

His coolies made him prosperous but he had trouble keeping them. They would get homesick and quit.

His labor turnover was too high. So he hit on a scheme for entering the boys during off hours, training them during off hours. He invented a game that required skill, luck and memory. His game was played with 36 cards, at first but the salt water air, and the anger of the losers made him substitute chips of ivory, bone or bamboo.

Sze's game was a great success. He nearly cornered the labour market. He became fabulously wealthy. That was 10,000 years ago. Maybe longer. Sze called his game "Sparrow." The game which everyone in the Pullman is of "Sparrow" still lives but today it is called "Mah Jong."

The McCormick-Deering Wide Type Disk Harrow will cover from 40 to 70 acres a day in summer fallow and is unexcelled for preparing wheat ground. It is made in 14 and 21-foot sizes.

GET RID OF ANTS
Mix 5c worth of tartar emetic with about the same quantity of sugar. Drop a little of this mixture where the ants run, and nine times out of ten you'll have no more ants.

The McCormick-Deering Wide Type Disk Harrow is equipped with the new heat-treated, crimp-center disks. These disks are 50 to 100 per cent stronger than ordinary disks and hold a keen cutting edge under the worst conditions.

Uneven ground is no source of worry to the owner of a McCormick-Deering Wide Type Disk Harrow. The gangs are sufficient flexible enough as a whole to insure good work on rough fields.

A baby is a nocturnal animal to the Pullman is of "Sparrow" still lives but today it is called "Mah Jong."

The disks used on our McCormick-Deering Tractor Disk Harrows are so tough that you can hurl one edgewise against a concrete floor and not hurt its edge. Heat-treating does the trick.

WESTMINSTER GLEE SINGERS GAVE HIGH-CLASS MUSICAL PROGRAM

The music loving public of Macleod were favoured last Monday night in having the privilege of listening to the world-famous Westminster Glee Singers, from London, England. Unfortunately it would appear that the music lovers of Macleod are limited in number, judging from the audience that

facied the Glee Singers Monday night. It would not be exaggerating to state that such a performance of high-class singing has never before been heard in Macleod, and the pity is that the house was not packed to hear a class of music that towns the size of Macleod have very seldom the privilege of hearing.

Every number on the programme was a musical gem, and was sung with an evident insight and appreciation which enhanced its musical appeal, and with one or two exceptions practically every number was encored, showing that the audience though small, was very appreciative. The exquisitely blended voices of the six boys and the lovely tonal quality of their singing in unison was in itself worth attending the concert, the six voices sounding as one the blending was so perfect. The boy soprano soloist, Harry Fearn, has a wonderful voice, and round after round of applause greeted his solo and his encore. Albert G. Greene, one of the basses in the Sailor Shanty songs, with chorus, was a special favorite with the audience, and was encored again and again. His response to one encore was "The Hundred Pipers," which

especially delighted the Scotch folks present. The Old English Country Songs were a great treat, representing seven different Shires in the South of England, bringing out in a wonderful manner the dialects of the several counties.

SENATOR VEST'S IMMORTAL TRIBUTE TO A DOG

A reader asks Macleod Times to reprint Senator George W. Vest's famous "Eulogy on a Dog."

Probably there are not half a dozen speeches by American public men which have been quoted as widely as this brief address to a jury in a backwoods Missouri court room.

A man had wantonly shot a dog. The owner asked for \$300 damages. After listening to Vest, the jury returned a verdict for \$500.

Here is the speech in full: "Gentlemen of the Jury: The best friend a man has in this world may turn against him and become his enemy. His son or daughter that he has reared with loving care may prove ungrateful.

"Those who are nearest and dearest to us, those whom we trust with our happiness and our good name, may become traitors to their faith. The money that man has he may lose. It flies away from him, perhaps when he needs it most.

"A man's reputation may be sacrificed in a moment of ill-considered action. The people who are prone to fall on their knees to do us honor when success is with us may be the first to throw the stone of malice when failure settles its cloud upon our heads.

"The one absolutely unselfish friend that a man can have in this selfish world, the one that never proves ungrateful or treacherous, is his dog.

"Gentlemen of the jury, a man's dog stands by him in prosperity and poverty, in health and in sickness. He will sleep on the cold ground, when the wintry winds blow and the snow drives fiercely, if only he may be near his master's side.

"He will kiss the hand that has no food to offer; he will lick the wounds and sores that come in encounter with the roughness of the world.

"He guards the sleep of his pauper master as if he were a prince. When all other friends desert, he remains.

"When riches take wings and reputation falls to pieces, he is a constant in his love as the sun in its journey through the heavens. "If fortune drives the master forth, an outcast in the world, friendless and homeless, the faithful dog asks no higher privilege than that of accompanying him to guard against danger, to fight against enemies, and when the last scene of all comes, and death takes the master in its embrace, and his body is laid away in the cold ground, no matter if all other friends pursue their way, there by his graveside will the noble dog be found, his head between his paws, his eyes sad, but open in alert watchfulness, faithful and true even to death."

Add odd measures: "Two looks and a 'yell' down the road. Who can say how far it is?"

MACLEOD GOLF CLUB ANNUAL MEETING-ELECTION OF OFFICERS

The annual meeting of the Macleod Golf Club was held April 2nd, when a large and representative membership were present. The president, Dr. Kennedy, read a report of the activities of the club for the last season, showing many improvements made to the course and new equipment purchased. On the whole it was the most satisfactory report received so far in the club.

The election of officers resulted in the old executive being returned as follows: Hon. president, Supt. Junget; president, Dr. Alan Kennedy; captain, T. L. Turnbull; secretary-treasurer, F. B. Frey with a greens committee composed of L. D. Huntley (chairman), J. O. Stewart, E. Charlton, J. D. Matheson, K. C.

The dues for the ensuing year were set at \$15 and \$7.50, with half these amounts for country members. Further improvements to the course are included in this year's budget and when these are completed the course will rank second to no other nine hole course in Southern Alberta.

Spring Point News

Hubert Stones was a Lethbridge visitor for the Easter holidays, the guest of his sister Mrs. Ernest Rister.

Miss Joyce Jackson of Pincher Creek, is visiting at her home at Spring Point.

Miss Francis Boles (teacher of Beaver Heights School) is spending a week in Lethbridge.

Mrs. Frank Plowman and little daughter Betty were visitors at Macleod over the week-end.

Miss Mary Brewster returned to Spring Point on Tuesday morning to resume duties teaching at Spring Point School.

Misses Grace and Alice Bratton, who are attending the Pincher Convention, are spending the holidays at their home at Spring Point.

Mrs. E. Taber and Anna, of Macleod are the guests of Mrs. J. R. Jones this week.

R. E. Reardon was a business visitor to Lethbridge this week.

"I'm a self-made man, that's what I am—a self-made man!" he said. "You knocked off work too soon," came a quiet voice from the corner. —Epworth Herald.

CHRIST CHURCH W. A. EASTER SALE WAS GREAT SUCCESS

The W. A. of Christ's Church (Anglican) held a very successful Easter Sale and Afternoon Tea on Saturday in the Town Hall, which was attended by a large crowd representative of all denominations in town. The president, Mrs. James Hartley, was greatly delighted with the financial success, and also with the splendid spirit of willing helpfulness of every woman and girl taking part and helping to make the affair a huge success.

The fancy work table was presided over by Mrs. J. Smith and Mrs. E. Bingham. The pantry table by Mrs. T. Brown and Mrs. W. Armer. Mrs. W. V. Price was convenor of the tea tables, and she was assisted by the following: Serving table—Mrs. L. Stedman, Mrs. E. G. Hillier, Mrs. Buckwell and Miss Maunsell. Making the tea—Mrs. Welsh, Mrs. E. Davis, Mrs. Redding, Mrs. W. Marlow. Pouring tea—Mrs. D. J. Grier, Mrs. S. Heap and Mrs. E. F. Brown. Serving the tea tables—May Grier, Marjory Greenwood, Margaret Hillier, Mona Grier, Connie Reid, Kathleen Chow, Ethel Pearson, Edith Armer, Elsie Taylor, Edna Wood. Selling ten tickets—Mrs. J. Watson, Mrs. Marshall and Mrs. Humphreys. Selling special tickets—Pearl Brewster.

The junior W. A. had special fancy work tables which were in charge of Mrs. Geo. Pearson, Jr. and Mrs. Dowson. The girls serving were—Madge Pharo, Florence Pearson, Nellie Taylor, Betty Welsh, Gladys Pearson, Ruby Taylor, Edith, Margaret and Phyllis Carr, Ina Clarke and Vera Burrows.

The W. A. of St. James' Church, Hazelmere, also had produce, pantry and tea tables, presided over by Miss Patterson, convenor, Mrs. Collar, Mrs. Cook with Miss L. Collar and Miss Nellie Alcock serving the tea tables.

Musical selections were rendered during the afternoon, consisting of piano solos and piano and violin duets by Miss Jean Hilliard, Miss Doris Watson and Lee Watchorn.

CARE OF BABY CHICKS ON ARRIVAL

(By Alex. Taylor's Hatchery, Winnipeg, Man.)

When your Baby Chicks arrive, be sure to have a comfortable home prepared for them. The lid of the chick box acts as a brooder and should be kept on until you have your brooder ready for them or give them to broody hens. Most farm folks have a brooder house 10x10 feet. This will accommodate 200 to 500 chicks with a coal burning Colony Brooder Stove to mother them. The brooder should be tested and operated several days before the chicks arrive and have the Brooder House thoroughly dried before the chicks arrive. The temperature of the brooder for the first week should be 95 degrees; second week 90 degrees; third week 85 degrees. The temperature of the brooder house five feet from the floor should be 65 to 70 degrees. Once you have raised chicks with a brooder you will loose all your desire to use broody hens. Give Baby Chicks water with the chick removed. Feed all the buttermilk they will drink, have plenty of small chick grit, oyster shell and charcoal in hoppers before them. Feed a Baby Chick Food of 50 per cent Fine Oatmeal or a

The Greatest March in all McLaughlin Buick History

THE motor-car buyer... the final judge of automobile values... has registered enthusiastic endorsement of the revolutionary advances made by the 1929 McLaughlin-Buick!

During the past month, McLaughlin-Buick sales have been 25% greater than March of last year... greater than any previous March in all McLaughlin-Buick history.

More people buy McLaughlin-Buick than any other car at or above its price... because the 1929 McLaughlin-Buick with its Masterpiece Bodies by Fisher, has unquestionably established a new standard of performance and a new order of beauty.

Get behind the wheel and get the facts!

THE BIG SWING is to ESSEX THE CHALLENGER

Hear the radio program of the "Hudson-Essex Challengers" every Friday evening.

It Challenges Your Interest in These Important Ways

EASY TO BUY

For Instance, the Coach \$382 Down, and monthly Payments of \$69.33

Your present car will probably cover the entire first Payment.

The H. M. C. Purchase Plan Offers the lowest available finance terms on the balance.

EASY TO OWN

On our own streets Essex the Challenger, under competent observation, averaged 25 miles per gallon. The average owner in this city can expect 18 to 20 miles and upward. Hundreds of records all over the country during "Challenger Week" prove Essex economy. Commercial users operating large fleets of Essex cars say that service and maintenance costs, covering millions of miles of operation, are lowest of any car they ever tested.

Essex the Challenger sweeps aside the barriers of price class. It challenges the performance, the style, the luxurious roomy comfort of any car at any price, on the basis that no other gives you back so much for every dollar you put in. That is why the big buying swing is to Essex. That is why motorists by thousands are switching from past favorites, and trading in their present cars for the big values Essex the Challenger gives.

Macleod --- Alberta

well mixed Commercial Chick Food. Hopper feeding is a Sanitary Poultry Practice and is especially valuable in preventing disease. Feed chicks what they can consume in 15 or 20 minutes, then remove what is left and feed four or five times a day. Chicks grow when they are consuming the maximum of feed and they will only do this when they are hungry between feedings. Feed all the grain in a litter of clover or straw. Green feed should be given at noon. Lettuce or chopped dandelions are very good. A good thing is to give the chicks a warm mash at noon of equal parts of shorts crushed oats, Victory Meal and Cornmeal, a pinch of salt, and pepper to flavor. Also mix with same your clean table scraps. Cod Liver Oil in the chick mash

essential during cold weather or dull days; it develops bone, muscle, plumage and keeps chicks supplied with the necessary vitamins. For chicks up to one month, use one ounce in ten pounds of dry mash; for older chicks and hens, two ounces in ten pounds of dry mash. Water dishes or fountains should be washed every day. Keep chicks warm and dry, change the litter often, especially if you have a large number together. Protect chicks against colds and draughts.

NOW IT CAN BE TOLD

CARD OF THANKS

Mrs. J. R. Morrison wishes to thank many friends for kindness and sympathy shown on the occasion of her recent bereavement. Also to express thanks to the B. P. O. E. No. 129 and to donors of floral tributes.

CARD OF THANKS

The officers and members of the Macleod Ladies' Hospital Aid wish to express their sincere thanks and appreciation to all who so kindly assisted in making their Easter Monday Ball a success.

Melrose Dripco Coffee

made with the

Dripco Coffee Filter

The Dripco Coffee Filter takes the uncertainty out of coffee making. It saves 25 per cent. in the amount of coffee required. The liquid is filtered from the grounds and harmful matter, and the resulting drink is both delicious and healthful. A coffee pot is unnecessary. Let us demonstrate.

1 Dripco Coffee Filter, value\$2.00
1-lb. Melrose Coffee, value75

Total value\$2.75

LOCAL AND PERSONAL NEWS

Mrs. Archie McLeod, of Sandpoint, Idaho, is visiting her daughter, Mrs. J. B. Carter.

Mrs. P. Clarke, of Granum, was a visitor in Macleod over the weekend, the guest of Mrs. George Tanner.

Mrs. Malcolm McKenzie, of Macleod, was a visitor in Calgary last week, the guest of her niece, Mrs. Timms.

Miss Dorothy Carmichael, teacher at Bellvue, spent the Easter holidays in Macleod as the guest of her sister, Mrs. C. C. Bremner, returning on Sunday morning, Mr. Bremner taking her back by car.

The Chevrolet and Nash Garage (Geo. H. Scoullall) has in process of erection a large electric sign covering the southern, western and northern exposures of their building and which will greatly enhance the appearance of the garage.

Miss Jessie Grant of Vulcan, is visiting Macleod this week, on account of the sickness of her father, James Grant, who is a patient at the Macleod Hospital. She is the guest of her sister, Mrs. J. Downie, 26th Street.

Miss Phyllis Rennie, of Calgary, daughter of Mr. and Mrs. Wm. Rennie, formerly of Macleod, has been visiting in Macleod, the guest of her aunt, Mrs. Geo. Skelding, for the Easter holidays. She returned on Tuesday morning, having stayed to take in the Westminster Choir Concert at the Empress Theatre on Monday night.

An interesting ceremony took place before the opening of the appellate division of the supreme court of Alberta on Friday morning at the Court House, Calgary, when J. D. Matheson, K.C., of Macleod, presented his commission as King's Counsel to Chief Justice Harvey, who called him into the inner bar and welcomed him. The Hon. J. F. Lymburn, Attorney General, also presented his commission at the same time, and was also called to the inner bar.

Thomas Kennedy, of Los Angeles, California, arrived in Macleod on Friday morning on a visit to his daughter, Mrs. W. J. Ryan. Mr. Kennedy arrived in the midst of the blizzard which started on Thursday night and continued all day Friday, and commented rather adversely on the change from balmy Southern California. Mr. Kennedy had been a resident of Lethbridge for many years and moved to Los Angeles about 8 years ago. He will make a stay in Alberta for three or four months, visiting his daughters in Macleod, Lethbridge and Calgary. He informs Mr. and Mrs. Ryan that in the Bank in which he does his business in Los Angeles, he found working there Albert Gardiner of Macleod.

On Tuesday evening in the Hudson's Bay Hall the Canadian Legion (Vets), Macleod branch, staged their annual ball in commemoration of the battle of Vimy Ridge, which was fought on April 9th, 1917. The dance was a most enjoyable affair, as all the Legion dances are, about 250 being present. Whittaker's orchestra of Lethbridge supplied the music in their usual high class style. The officers of the Legion, Ashley Grier, president; Wm. Whitworth, vice-president; D. W. Davis, secretary-treasurer, and members of the executive, were in charge, making all arrangements and providing a first class luncheon at midnight. Capt. J. S. Lambert was at the receipt of custom at the door, in his usual efficient manner.

Miss Mable Young is at Crossfield visiting her grandparents, Mr. and Mrs. W. McRory.

Mr. and Mrs. R. A. Clement and son Addison spent a three-day holiday in Calgary last week, returning home Saturday.

Mrs. H. C. Dillingham of Oakland, California, is the guest of Mr. and Mrs. S. Dillingham in Macleod this week.

Miss Blanche Carmichael of Lethbridge, is the guest of her sister, Mrs. C. C. Bremner.

R. L. Penfield and Weir Davis of the Bank of Montreal Staff, Glenwoodville, were present at the Legion's Vimy Ridge dance on Tuesday night.

Miss Carrie McLaren, of Lethbridge, was the guest of Mrs. Ray Baker in Macleod over the weekend, returning on Monday morning's train.

Miss Lena McLean returned on Monday morning to Claresholm after spending the Easter holidays in Macleod as the guest of her parents, Mr. and Mrs. T. S. McLean.

Leo Nihill, who got his collar bone broken in a riding accident on the farm during the Easter holidays, returned to Calgary on Wednesday morning to resume his studies at the Normal School.

E. Coleman, C. Payne, L. Gubb and P. McCulloch, of the Natural Gas Co., Calgary, are in Macleod this week making an inspection of all the gas stoves and gas appliances in the town.

A quiet wedding took place on Wednesday afternoon, April 3, at Knox United Mission, when Charlotte Jane Lee became the bride of Clifford Henry Smith, both of Macleod. Rev. T. T. Fairclay, M. A., D. D., performed the ceremony. Mr. and Mrs. Lee.

Mrs. Smith will reside in Macleod.—Lethbridge Herald.

Mr. and Mrs. Sandgathe of Granum took in the Vimy Ridge Ball in Macleod on Tuesday night.

Elias Walters of the Hutterite colony, Stand Off, was a business visitor to Lethbridge on Tuesday.

Mrs. Robert Sackett left on Thursday morning's train for Los Angeles, California, where she will make a stay for a few months, being ordered there by her doctor.

Father Rouleau of Calgary, formerly of the Holy Cross Church, Macleod, arrived in Macleod on Wednesday, and is visiting and renewing old acquaintances among his former parishioners.

N. H. Bradley, Lethbridge, Alberta Government Highways Commissioner, was a visitor in Macleod on Tuesday, in connection with road improvements in the Macleod district.

The closing meeting of the United Church Brotherhood was held on Tuesday, April 9, when the Brotherhood entertained the members of the Women's Missionary Society to luncheon. The ladies supplied the desserts while Mr. Philip Brooks and his able staff of Taxis and Trail-Rangers and their friends attended the preparation and serving of the meal. A ten-piece orchestra from the Macleod Band interspersed the programme with delightful selections.

The speakers for the occasion were Mrs. Rev. A. J. Elson of Lethbridge, formerly a missionary in China, and Mr. W. H. Shield, M. L. A., local representative in the legislature. Mrs. Elson drew a vivid picture of the power of altruism in the Christian civilization compared with the untold and unrestrained selfishness of the Chinese; which selfishness prevented the co-operation necessary to great achievement. Representative Shield gave a very concise resume of the last session of the legislature, dwelling longest on the proposed School Bill which would more justly distribute the burden of educational taxation and make possible better standards of efficiency for the rural districts particularly. Many were the expressions of delight and gratitude. In the early summer the Brotherhood will have the autumn and winter programme completed for considerably wider field of discussion, including debates on topics of local and provincial interest.

The University of Toronto is manifesting its appreciation of the work of Canadian Chautauquians by donating the University Campus as a site for one of the three large tents for the coming term.

NATIVE FRUITS AND ORNAMENTS

"Far-off fields look green." This aphorism applies to more things than pasture.

We have wisely imported the currant shrub but largely neglected to cultivate the saskatoon and the buffalo berry. We plant the Scotch pine but forget the lodge-pole and the spruce. We pay out good money for the Russian and Northwestern poplars but most of us fail to utilize the shapely, sweet-scented balsam of gilead and the cottonwood. In our commendable quest for the variety of type and character contributed by exotics we are too prone to pass up the native species, whose habitat proves them adapted to our environment.

The Dominion Experimental Substation at Beaverlodge, Alta., has been rather featuring these native plants. Conspicuous success has attended the culture of the saskatoon as pruned hedges, as fruiting rows and as low windbreaks or snow catches. Failure attended ordinary methods of transplanting the saskatoon but when chunks of roots with all the top chopped off were strewn into a shallow furrow and completely covered up a slow but sure establishment took place and today, ten years after planting, these "hedge" attract as favorable attention as anything in the grounds.

Another hedge plant native in Southern Alberta and recently introduced at Beaverlodge with promise of success is the bulberry or buffalo berry, (Shepherdia argentea). Other natives successfully brought under cultivation are sandcherry, chokecherry, pincherry, mountain ash, snowberry, wild honeysuckle, wild clematis and dwarf birch.

A certain measure of success has been met with the dwarf hazel nut and the penhina, or high-bush cranberry, while silver birch is being tested.

Wild strawberries, raspberries, currants and gooseberries have been tried but discarded in favor of domestic sorts.

Among trees the balsam of gilead, the white spruce and the tamarack have all flourished. And there are still more things to try.

CHRIST CHURCH (ANGLICAN)
